

89FEP-0032

7-Eleven Freestanding Inflator

The FEP model is purpose-built for service and gas stations, delivering safe, accurate, and reliable tyre inflation while enhancing your site's image. The cast baseplate and extruded aluminium body with high quality powder coat finish makes it ideal for any service station forecourt.

Features include selectable PSI/kPa units, a 'Flat Tyre Only' mode, high-quality piezo switches, and a ceramic pressure sensor for long-lasting performance.

Features

Designed for Forecourts

Purpose made freestanding unit with cast baseplate & extruded aluminium body.

Safe & Accurate

Supplied with 10 metre air hose and Clip On Air chuck ensuring safe and accurate tyre pressure.

Easy Install

Easy to install, the unit connects seamlessly to any on-site external compressor.

Reliable & User Friendly

High reliability (vandal resistant) Piezo switches. For a user friendly experience.

Multiple Colour Options

Colour, branding and decal options available, to enhance corporate image.

Optional Item

Light Kit

Top plate LED visual display

This light is designed for night use, clearly indicating when a tyre has completed its cycle. The standard LED colour is blue, chosen for optimal visibility in low light conditions.
