

89FRP-5004

Digital Vehicle & Bike Tyre Inflator

The 89FRP-5004 Inflator features dual inflation modes for both vehicle and bicycle tyres. The model is purpose-built for service stations without an external air source, featuring an in-built compressor for safe, accurate and reliable tyre inflation. Its durable extruded enclosure houses high-quality piezo switches and a ceramic pressure sensor for long-lasting performance. Operates in PSI or kPa, with a 'Flat Tyre Only' mode for low-pressure tyres. The kit includes a compressor, 10m hose, and coupling cover, 1m bicycle hose with twin head chuck for Presta, Dunlop, or Schrader valves.

Features

Designed for Forecourts

Purpose made freestanding unit with cast baseplate & extruded aluminium body.

Safe & Accurate

Supplied with appropriate hoses & connections for vehicle and bicycle inflation ensuring safe and accurate tyre pressure.

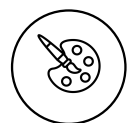

Easy Install

Easy to install, including an inbuilt compressor.

Reliable & User Friendly

High reliability (vandal resistant) Piezo switches. For a user friendly experience.

Multiple Colour Options

Colour, branding and decal options available, to enhance corporate image.

Optional Item

Water Converter Kit Optional water tap

Offers customers the added convenience of a built-in water tap at the same unit. Water decal also available to compliment user experience.

Technical Data

Digital Vehicle & Bike Tyre Inflator

Specifications

Construction	Extruded Aluminium Enclosure (IP 44)
Power	220 ~ 240VAC (Optional 100-120VAC)
Dimensions	410W x 1400H x 450D mm
Measurement	psi kPa
Range	5 ~ 60 psi 35 ~ 415 kPa (145 psi option on request)
Accuracy	± 0.5% Full Scale

Included Parts

	22.0000	Hose Coupling Cover
	61.0008	Hose Assy Standard Black 10m
	31.0235	Compressor Assembly, Gast, 240V 50Hz, 8.6bar, c/w conversion kit, FRP
	77.0298	Warning Decal / Bike chuck Instructions
	61.0007	Bike Hose Kit
