

89TR6-1001

Mobile Inflation Trolley (Nitrogen)

The TR6 is a convenient mobile solution for professional nitrogen tyre inflation, ideal for motor racings pits, workshops, tyre stores, fleets and dealerships.

This rugged unit can inflate up to six tyres simultaneously and connects easily to a fixed nitrogen source. Inflation begins automatically once the hoses are attached, with clip-on closed chucks allowing technicians to work hands-free. An audible beeper signals when the cycle is complete.

Features

Mobile

Rugged and durable trolley with solid rubber tyres.

Integrated Accessory Box

Integrated accessory box for storage of chucks, valve cores and caps.

Nitrogen Compatible

Suits direct Nitrogen supply from and N² generator.

Accurate Results

Accurate and easy to use; Provided with 6 hoses to inflate up to 6 tyres at once.

Safety Functions

Auto power off function, purging, charger and NiMH battery supplied.

Optional Item

Battery Pack, 12V, Ass c/w battery casing

Charger Base

Battery Holder

Charger

97.1110 Battery Kit Replacement Kit

Specifically designed for Airtec Nitrogen Trolley units, to handle the constant demand of busy tyre shops.

Simply upgrade your existing Battery Holder with the latest Battery Holder and Charger Pack.
